

Mendoza College of Business

April 28th, 2021

Michael Spanos  
Founder and Managing Director, Global Sustain Group

Dear Michael,

On behalf of the Mendoza College of Business at the University of Notre Dame, we are writing to express our gratitude for your lecture on Sustainable Business in Europe for our Virtual International Immersion on Wednesday March 24th, 2021. Our MBA and Master of Science in Management students gained insightful perspective on the laws and regulations in the EU regarding sustainable business practices, the EU Green Deal, as well as sustainable investment and taxonomy in the EU.

Your expertise was invaluable to our students as they worked with sustainability focused companies in Europe on a live case study project. It helped to provide them greater context on sustainability in Europe and helped them offer more insightful and realistic solutions to their live case study companies.

Sincerely,

A handwritten signature in blue ink that reads "Alice Obermiller".
