

ALPHA BANK

Testimonial Letter

Sustainability and Corporate Responsibility are part of our corporate culture and constitute a big priority for the organisation. Our aim is to build a better community for our stakeholders in line with our business goals and Global Sustain has helped us to achieve that as one of our most valuable partners in sustainability.

Since 2007, the company has been supporting us with exceptional professionalism and effectiveness as it always went one step further, encouraging open communication, cooperation, and the sharing of knowledge.

We are proud for being members of the Global Sustain family and we are looking forward to the next steps of our collaboration!

Kind regards,
