

The image features two hands, one from the top and one from the bottom, cupping a globe. The globe is partially obscured by the text '2015 Global Sustain' and 'People | Planet | Profit'. The background is a bright, hazy landscape with a tall grass stalk on the left. The text '2015' is in a large, bold, dark blue font. The words 'Global Sustain' are in a smaller, bold, dark blue font, with 'Global' and 'Sustain' separated by a vertical line. Below this, 'People | Planet | Profit' is written in a smaller, dark blue font, with vertical lines separating the words. A red arc is visible at the bottom of the globe.

Visualising Energy 2015

Visualizing Energy Partner Options

OPTION 1

Exhibition Cube
Highlight your role in the energy transition by showing the different projects your country, region, company or industry is pursuing.
Each panel is branded with your logo and includes an optional fact or figure about your project. Panel cameras are yours to keep after the summer 2015 exhibition.

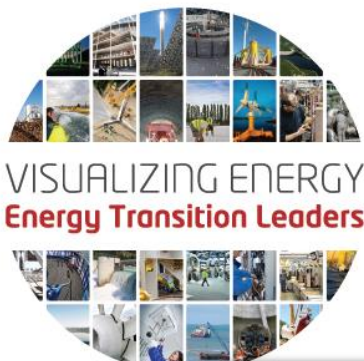

OPTION 2

Exclusive Tent
Gain great exposure at the New Energy Fair during the EU Sustainable Energy Week outside the European Parliament.
Showcase your latest projects and technologies that are driving the energy transition, influence policy-making and inform the public!

OPTION 3

Special Handbook
Tell the story behind your projects and people in Revolve's 200-page "Energy Transition Leaders" handbook distributed during and after the EU Sustainable Energy Week.
Partners get 50 free copies plus a complimentary video of their Energy Transition Leader.

BRUSSELS | SUMMER 2015

Photography Guidelines

Subject:
ALL PHOTOS MUST DEPICT ASPECTS OF THE ENERGY TRANSITION (ie. except low signs of pollution).
- Photos showing renewable energy, energy efficiency or e-mobility projects
- Photos showing sustainable cities, smart grids or smart buildings

Image Quality:
PLEASE SUPPLY THE BEST QUALITY IMAGES YOU HAVE.
Resolution must be at least 72 dpi. Minimum accepted: 3000 px height preferred: 7500 px height
SD: Do not resize your images to make it fit the required size. Do not compress your image in file less than 1.5 MB. It is probably compressed. If you are unsure about the quality of your images - ASK US. Images should be:
- taken with a great quality camera by a professional photographer
- in focus, with a well balanced composition

revolve.media

File type:
Please supply your images as high resolution JPEG/TIF file only.
File naming protocol:
Please follow the naming format:
Your Company Name, Project Name, Image Name, Image Number

Caption:
In a separate text file (Word Document), write a caption for each photo submitted in the following format:
- File name
- Full Project name, city, country
- Source/ownership of the image (Optional)
- The names of any people in the image (if available, their positions) and a brief explanation of what they do
- A fact / figure or quote related to the job or project (Optional)

Highlighting the human dimension of energy transition around Europe

"People must see that the solutions are there."

Corina Hegedus, European Commissioner for Climate Action
- Visualizing Energy 2015

"Energy is the lifeblood of our economy, indispensable to our society."

Delorski Witek, Director-General, DG ENER, European Commission
- Visualizing Energy 2014

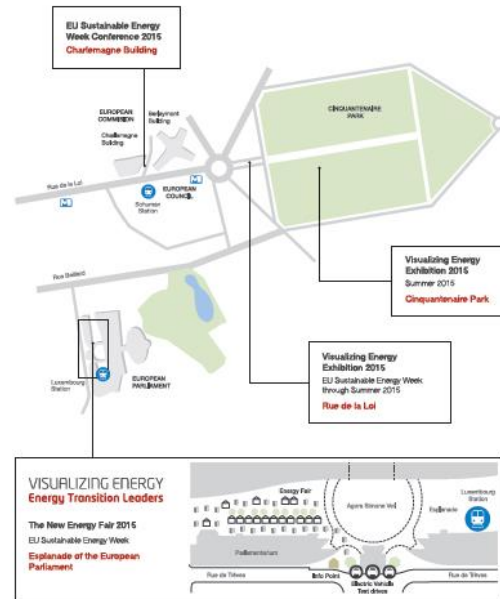

#VE15

Visualizing Energy brings together the leading industries, companies and people that are shaping a more sustainable future. Visualizing Energy 2015 includes:

- A Photo Exhibition
- A New Energy Fair
- Special Handbook and Reports
- Electric Vehicles Test Drives

Revolve invites you to highlight your role in the energy transition at Visualizing Energy 2015 to students, journalists, policy-makers and the public.

The Visualizing Energy Series has been seen by over 250,000 people and counting...
